

MPD MICROWAVE
PRODUCT DIGEST

2022

*Media &
Advertising Guide*

6 REASONS TO PARTNER WITH MPD

The Industry Source for New Products and Technology

For more than 31 years MPD has been the only tabloid-format magazine serving the RF and microwave community. This big, bold format lets us showcase more new products than any other print publication serving the industry. For example, a tabloid-size advertisement in MPD is 40% larger than a standard-size ad in other industry publications and a standard-size advertisement in MPD is the size of a full page in a traditional trade publication.

More Content in Every Issue

Every year we feature nearly 1000 new products, about 75 product and technical articles and 12 opinion articles. We aim to provide information on new products in every category, while complementing them with technical and application articles, news, and industry perspectives.

A Dynamic Online Presence

MPDigest.com: Our print edition is complemented by an active website with a section dedicated to defense products and technologies. All articles and featured products from the monthly issues may be found on the MPD website.

Email Marketing

MPD's email marketing strategy is simple: To deliver

information from advertisers to our opted-in subscribers at the most cost-effective rates in the industry, and provide advertisers with verifiable metrics on campaign performance.

Lead generation campaigns bring clients right to you. We send your message and have the capability to capture qualified leads for your sales team. IDG reports in its B2B Lead Generation Marketing Trends survey that company website, conferences, tradeshow, and email marketing are the most effective lead generation tactics being used today.

Product Email Blast

Twelve times per year MPD sends a focused product email blast. This is a great opportunity to highlight products that warrant extra attention. This is also an opportunity to direct our readers toward your company website for additional product information.

MPD: Your Best Media Buy

Add it all up and *Microwave Product Digest* continues to be a key source of information for engineering managers and design engineers. And that's a great reason why you should make MPD an essential part of your advertising program.

The directory appears in February, July and October. All advertisers in that month's issue will be included in this value-added section at no additional charge.

† Due to the IMS Show timing all ad materials must be delivered by this date.

Military Microwave Digest

3 issues in 2022

Staff-Written Insights Into Defense Programs and Technology

Military Microwave Digest (MMD) is the industry's only staff-written guide to the latest defense markets, technologies, and programs. Topics range from EW to ECM, ELINT and SIGINT, radar, battlefield communications, to many more.

MMD will be printed as well as digitally distributed to our 31,000 email subscriber list for the March and September issues. A *digital only* issue will be produced to coincide with IMS2022 and will be delivered to our subscribers and our 31,000 email list.

Success Stories & Business Profiles

The Success Stories & Business Profiles digital supplement in the December issue will continue to be a source of information for the industry. Special rates apply to fit your budget.

Mechanical Requirements for Military Microwave Digest

	INCHES (trimmed) width x height
Standard Page	7-13/16 x 10-3/4
Standard Spread.....	15-5/8 x 10-3/4
1/2 Page Island	4-9/16 x 7-1/2
BLEED STANDARD PAGE	8-1/16 x 11
All live matter must be kept 1/4 inch inside page trim size. Bleed 1/8 inch.	

Mechanical Requirements for Success Stories & Business Profiles

	INCHES (trimmed) width x height
Standard Page	8-1/8 x 10-3/4
BLEED STANDARD PAGE	8-3/8 x 11
All live matter must be kept 1/4 inch inside page trim size. Bleed 1/8 inch.	

BY THE NUMBERS

OPPORTUNITY	DESCRIPTION
Print circulation	20,000 Domestic
Digital edition	8,000 Domestic – 3,000 Foreign
Readership (all)	68% design engineers, 11% engineering managers, 8% engineering support. Remainder primarily academia and consultants.
Market sectors represented	Avionics, Automotive, Cable (CATV), Communications, Defense, Consumer Electronics, ISM - Industrial/Medical/Scientific, IoT, Radar, Satellite, Semiconductors and ICs, Software, Test Equipment
Email blast list	31,000. Opted-in. Complies with CAN-SPAM Act.
Additional issues	Military Microwave Digest, plus supplements on Amplifiers and Signal Sources, Cables and Connectors, and Success Stories and Business Profiles
Trade show distribution	Satellite 2022, International Microwave Symposium 2022

EDITORIAL & PRODUCTS

OPPORTUNITY	DESCRIPTION
New products	More than 60 new products per issue; additional products online
Product features	Contributed articles describing new products and technologies in detail
Technical articles	Contributed articles describing new technologies, as well as “how-to” articles that provide help to designers and tutorial articles that provide basic information about technologies (both old and new) as a “refresher course” for newcomers to the industry and veterans alike
In My Opinion	A contributed op-ed article on Page 3 of each issue that delivers the opinion of a company executive or technologist on issues facing designers and the RF and microwave community as a whole
Industry news	Short articles highlighting events, appointments, or other newsworthy items from RF and microwave companies
Military Microwave Digest	Staff-written supplement included with the March and September issues of MPD. Editorial ranges from technologies to DoD market sectors, programs, and issues facing the design community.

ADVERTISING

OPPORTUNITY	DESCRIPTION
Print/digital ads	Print: Tabloid, standard page, fractionals, marketplace Online: Website banners and monthly product email blast
Email blast	Distributed to 31,000 subscribers. Advertisers are provided with data showing opens, unique opens, and click-throughs (by URL) to advertiser web pages.
Free features for advertisers	1. Three times per year; February, July, and October, all advertisers in these issues will be included in a website directory. 2. Full-page advertisers in all supplements except Military Microwave Digest receive additional facing page describing the company, its products, and technologies.

Online Opportunities

The MPD

Product Email Blast

MPD's product email blast is dedicated to providing readers with a variety of highlighted products. It is distributed on a monthly basis to MPD's 31,000 opted-in subscribers.

For each product you will get:

- A 75-100 word description of the product
- A product photo
- URL to the product on your website
- Company URL

The product email blast sent prior to a show will also have a spot for your booth number, if you will be exhibiting at the event.

Positions in the email blast are available in subscriptions of 3, 6, and 12 months. For information about rates, please contact your MPD sales representative as shown on Page 2.

We also offer banner ad placement in the email blast.

August 2019 Product Blast [View this email in your browser](#)

The August MPD Product Blast brings you product innovations and new to the market items. As Summer comes to a close, the production cycle ramps up again. We hope you find a product in this email blast that helps your engineering needs.

If this product blast was forwarded to you and you want to subscribe, please click [here](#).

TECHNOLOGICAL DEVICES

Knowles Precision Devices (DL) Filter Technology addresses the challenge of implementing high performance, small form factor filters at mmWave

Knowles Precision Devices (DL) Filter Technology addresses the challenge of implementing high performance filters at mmWave frequencies. 26GHz, 28GHz and 39GHz catalog filters provide 3GHz of bandwidth, > 50dB rejection, are 20x smaller than current alternatives while implemented in surface mount packages for standard tune-free assembly and provide temperature stable operation from -55°C to +125°C. Off the shelf catalog designs are available to 42GHz and custom design services are available.

ABCT Pilot Program

Thinkom Satellite Antennas to Be Tested During U.S. Army Armored Brigade Pilot Program

Thinkom Solutions, Inc., has been selected to supply phased-array satellite terminals for a pilot program evaluating communications on-the-move (COTM) options for U.S. Army Armored Brigade Combat Teams (ABCT). The ABCT COTM solution will integrate enhanced mobile network solutions directly onto select vehicles to make command posts more expeditionary, while enabling soldiers to retain network connectivity as they drive across the battlefield. The Army is currently setting the stage for an ABCT On-The-Move (OTM) pilot this year, to evaluate new commercial network system prototypes integrated onto select ABCT vehicles. The goal is to enhance mobile battlefield ABCT network communications, mission command, situational awareness and ultimately unit lethality.

Smiths Interconnect

Smiths Interconnect files high on F-35 aircraft

Smiths Interconnect has been involved in the programme for now over 20 years, supplying hundreds of different Interconnect devices including high-reliability technologies, from RF components and high-speed/power density filtered connectors to integrated microwave assemblies.

Online Opportunities

The MPD Monthly Newsletter

MPD's newsletter has articles from a variety of industry sources and current industry news. It is distributed on a monthly basis to MPD's 31,000 opted-in subscribers.

Sponsorship and banner ad placements on the newsletter are available.

Advertisers receive complete results directly from our server including total emails sent, unique opens, total opens, and click-throughs per link.

MPD Website Banners

Advertising on MPD's website is a cost-effective way to feature your products and technologies on one of the most comprehensive sites in the RF and microwave industry. Our website has a high traffic rate, and viewers typically view multiple pages after they arrive. There are many ways to advertise:

- **Home page:** For the best visibility, this is our premier opportunity
- **On every page:** Advertising throughout the MPD website gets you noticed no matter what pages viewers visit.
- **On specific pages:** Advertising on the page of your choosing gives more flexibility to your online visibility.

1. **Beltway** — 600 x 160 pixels
2. **Skyscraper** — 160 x 600 pixels
3. **Baseboard** — 600 x 120 pixels

All types of ads can be animated and rotating. For advertising rates, please contact your salesperson.

Online Opportunities

Custom Email Blasts

Drive potential customers to your company, its products, and capabilities using MPD's highly successful email marketing programs.

- The most cost-effective email marketing program in the RF and microwave industry
- Promote products, videos, white papers – virtually anything you want industry professionals to know about
- More than 31,000 fully opted-in subscribers in private industry, defense, and other organizations throughout the world
- Established track record of success
- Advertisers receive complete results directly from our server including total emails sent, unique opens, total opens, and click-throughs per link
- MPD offers guidance and design services to first-time advertisers in selecting optimum content and presentation

MPD has the ability to gather lead generation data using your email blasts that contain white paper or downloadable content. We host the content and utilize form driven download links to gather data about interested parties.

The MPD Product Focus

MPD's Product Focus is a co-branded email that allows an advertiser to get information about products and upcoming product news to our email list of 31,000 opted-in subscribers. The header is branded with the MPD logo and all other branding on the email is the advertiser's.

Podcasts

MPD can help you create a podcast of great value to your audience as well as ours! We offer a turn-key solution to give you ample time to think about the content and how you'd like your company to be spotlighted.

Often listened to in what would be down time, podcasts are approached differently than other media. Podcasts can be narrative, telling a story; done in an interview style; or a series of 3 or 4 based on a hot topic or different themes.

Podcast listeners are:

- Every age group, and tend to be educated, affluent, and brand loyal.
- 25% of podcasts are listened to in the car
- 49% are listened to at home while doing multiple other chores.
- 44% of US adults listen to podcasts, this percentage increases amongst those interested in technology.
- Of those with interest in technology and staying on top of all advances, 80% listen to entire episodes AND 80% have purchased based on podcast sponsorships or ads.

Sponsor a podcast and let us help you determine the best format for you given your goals and objectives.

Sponsorship includes:

- Client executive participation in the half-hour podcast
- Conversation in advance of the recording to go over goals, content, roles, technical infrastructure, show flow and branding
- MPD Host provided for the podcast, and MPD records and edits the podcast
- Finished audio file of the podcast to be hosted on mpdigest.com with data and downloads gathered. Podcast to be distributed via leading subscriber platforms including SoundCloud, Stitcher, GooglePlay and Apple podcast.
- Sponsor also receives branding and marketing exposure through:
 - Banner ad on the podcast page of mpdigest.com calling further attention to your podcast and encouraging subscribers and visitors to download and listen
 - Promotion via MPD website, monthly eblasts and other emailers
- Client will receive a finished audio file for company's own use and distribution.
